# Why Study at COLUMBIA UNIVERSITY

Invention Hub - Columbia is the place where some of the world's most brilliant inventions were made. The Manhattan Project was a significant undertaking that happened during the Second World War. Researchers at Columbia created the first nuclear weapon – the atomic bomb. Other famous early inventions are FM Radio, neon laser, and many more. Today, Columbia has a spectacular alumni base that holds patents for over a thousand projects and researches.

A Noble at Every Corner - Columbia is an amazing university, and it still holds down the title because of the quality graduates it produces every year. The university has a history of high achievers including 4 presidents, 46 Olympians, 84 Nobel prize winners, over 90 Pulitzer prize winners, and many celebrities.

Not Your Typical Classroom-In a world of classrooms, 309 Havemeyer Hall is a celebrity. Columbia University is famous for having the most filmed college classroom. It was the setting for more than a dozen films including all three original Spiderman films.

# INTRODUCTION

Columbia University is one of the world's most important centres of exploration and at the same time a distinctive and distinguished learning environment for undergraduates and graduate scholars in numerous scholarly and professional fields. The University recognizes the significance of its locality in New York City and seeks to link its exploration and training to the vast resources of a great megalopolis.

It seeks to attract a different and multinational faculty, staff, and student body, to support exploration and tutoring on global issues, and to produce academic connections with numerous countries and regions. It expects all areas of the University to advance knowledge and literacy at the loftiest position and to convey the products of its efforts to the world.

# LOCATION

Columbia University is Located on the Upper West Side of Manhattan, it is the centre of the artistic and classical life of the Northeast Corridor.
